AITECH: Kaun se pages rakhne chahiye?

Content inventory, duplicate review aur future structure | 25 October 2026

Seedha jawab: Sab blogs aur pages ko change karna zaroori nahi. Existing useful pages ko rakhein, repeated offers ko consolidate karein, khali course pages ko build ya relevant parent mein combine karein, aur learner ki madad karne wale blogs ko clear purpose dein.

Inventory	Count	Is ka matlab
Blogs	274	WordPress post sitemap ke URLs
Pages	444	WordPress page sitemap ke URLs
Total primary content	718	Har URL ka individual action Excel mein
Strong repeated-content pairs	14	13 duplicate candidates sitemap mein; 1 extra double-slash variant
Saved empty content containers	79	Current CMS/rendered verification ke baad build/consolidate decision

Additional 1,513 observed/archive URLs bhi Excel ke Other URLs tab mein hain. In mein 802 tag, 239 category aur 7 author URLs shamil hain. Inventory saved sitemaps + crawl + GSC exports ka union hai, live CMS ki guaranteed exhaustive list nahi.

Is delivery mein: PDF mein decisions aur specific examples; Excel mein tamam 718 blogs/pages, duplicate mappings, related intent groups aur other observed URLs. Is audit mein website par koi change nahi kiya gaya.

1. Tamam 718 blogs/pages ka decision summary

Action	Count	Faisla
Keep + improve	297	Rakhna hai; accuracy, proof aur links improve karein.
Intent overlap review	46	Same intent ho sakta hai; group ke URLs compare karein.
Course/blog purpose review	129	Course sale page aur informational article ka role clear karein.
Keep provisionally + verify	62	Filhal rakhein; content/access verification required.
Build or consolidate empty page	79	Khali saved content; active offer ho to build warna relevant consolidation.
Utility / noindex review	7	Function rakhein; public indexing ki zaroorat assess karein.
Keep as proposed primary	14	Duplicate group ka proposed main page.
Lesson purpose review	56	Standalone tutorial ya student lesson/syllabus section decide karein.
Merge candidate	13	Repeated content; destination checks ke baad consolidation.
Alias already redirects	2	Redirect already observed; live duplicate count mein nahi.
Dated content review	7	Intake/event status update ya useful historical archive.
Retire / refresh review	6	Obsolete/peripheral topic; business aur links check required.

Yeh actions mutually exclusive inventory labels hain. "Review" ka matlab deletion approved nahi. Blog ka WordPress post type hona khud SEO issue nahi; learner intent aur useful content deciding factors hain.

Delete-all list nahi: Zero clicks ya low word count akelay deletion ka reason nahi. Backlinks, enquiries, current courses aur historical value ka complete evidence abhi available nahi.

2. Evidence ki strength aur important limits

Saved snapshot status	URLs	Decision ka use
Saved content available	540	Content similarity aur editorial role ka review available.
Limited extracted main content - verify rendering	32	Structural decision se pehle current page verify karein.
Empty entry-content container in saved HTML	79	Structural decision se pehle current page verify karein.
Saved HTML incomplete	61	Structural decision se pehle current page verify karein.
Firewall response only	6	Structural decision se pehle current page verify karein.

Saved HTML 24 Oct collection se hai; assessment 25 Oct 2026 ki hai. 61 incomplete HTML responses aur 6 firewall-only responses ko thin/duplicate-content proof nahi gina gaya. 32 aur pages par extracted text limited hai, is liye rendered/CMS view required hai.

79 empty-container flags sirf un snapshots par hain jahan saved WordPress entry-content khali mila aur extracted main content bhi limited tha. Is se current live page ya JavaScript-rendered content ke bare mein final conclusion nahi nikalta. Excel mein har row par evidence alag diya hai.

Strong duplicate candidates: independently returned final URLs, common footer ko trim karne ke baad extracted text ki 5-word shingle overlap. 14 pairs 84%-100% overlap range mein hain. Similarity Google ka score ya automatic penalty nahi.

Traffic columns: 23 Jul-22 Oct 2026 GSC page export. Blank ka matlab available export mein row nahi; proven zero traffic nahi. Latest/prior 28-day clicks bhi Excel mein hain. Protocol/trailing slash normalize kiye gaye; double-slash path separately inspect hua.

Canonical tags mein conflict aur content duplication alag findings hain. Sirf canonical conflict hone se dono pages ka content duplicate assume nahi kiya gaya. Existing redirects bhi live duplicate candidates se alag rakhe gaye.

3. Repeated content: specific merge candidates (1-4)

D01 - URL normalization

Proposed primary: /islamabad/
Other URL: //islamabad/

Saved-text overlap: 100.0%. **3-month clicks:** primary 62; other not in export.

Duplicate slash variant. Normalize route and internal links.

D02 - CCNA Islamabad

Proposed primary: /islamabad/courses/cisco-ccna-enterprise/
Other URL: /islamabad/courses-cisco-ccna-enterprise/

Saved-text overlap: 100.0%. **3-month clicks:** primary not in export; other not in export.

Identical extracted main text on two independently returned URLs.

D03 - Qatar courses

Proposed primary: /courses/overseas-pakistanis/online-courses-qatar/
Other URL: /courses/overseas-pakistanis/online-course-qatar/

Saved-text overlap: 99.2%. **3-month clicks:** primary 0; other not in export.

Near-identical course offer. Retain one Qatar landing page.

D04 - Prompt engineering

Proposed primary: /courses/ai/prompt-engineering/
Other URL: /prompt-engineering/

Saved-text overlap: 98.7%. **3-month clicks:** primary not in export; other 0.

Near-identical offer. Dedicated course route proposed; check links and any hidden enquiry value.

Before 301: Same product, audience, fees/exam inclusions aur live copy verify karein; strongest links/enquiries check karein. Useful unique text primary par transfer karein. Phir source ka relevant 301, internal links/sitemap update aur target ka single self canonical verify karein. Listed destinations proposed hain.

3. Repeated content: specific merge candidates (5-8)

D05 - Juniors App Inventor

Proposed primary: /young-learners-it-program-pakistan/juniors/app-inventor/
Other URL: /young-learners-it-program-pakistan/app-inventor/

Saved-text overlap: 98.4%. **3-month clicks:** primary 0; other 0.

Near-identical same learner product.

D06 - Juniors Roblox

Proposed primary: /young-learners-it-program-pakistan/juniors/roblox-gamedev/
Other URL: /young-learners-it-program-pakistan/roblox-gamedev/

Saved-text overlap: 97.0%. **3-month clicks:** primary 6; other not in export.

Near-identical same learner product. Juniors route has 6 clicks in 3 months.

D07 - CEH

Proposed primary: /courses/networking/ceh/
Other URL: /career-tracks/networking/ceh/

Saved-text overlap: 96.1%. **3-month clicks:** primary 0; other not in export.

Near-identical certification offer. Course is one destination; career track should link to it.

D08 - Islamabad campus

Proposed primary: /campuses/islamabad-campus/
Other URL: /it-courses-islamabad/

Saved-text overlap: 96.0%. **3-month clicks:** primary 63; other 0.

Near-identical campus content. Campus URL has 63 clicks versus 0. If separate course-list intent desired, rewrite it as a real directory instead of redirect.

Before 301: Same product, audience, fees/exam inclusions aur live copy verify karein; strongest links/enquiries check karein. Useful unique text primary par transfer karein. Phir source ka relevant 301, internal links/sitemap update aur target ka single self canonical verify karein. Listed destinations proposed hain.

3. Repeated content: specific merge candidates (9-12)

D09 - AI writing lesson

Proposed primary: /career-tracks/ai-machine-learning/generative-ai-communication/genai-improving-writing/
Other URL: /career-tracks/ai-machine-learning/generative-ai-business/genai-improving-writing/

Saved-text overlap: 92.0%. **3-month clicks:** primary 0; other 0.

Same lesson reused under two tracks. One public lesson can serve both tracks.

D10 - Networking hub

Proposed primary: /courses/networking/
Other URL: /career-tracks/networking/

Saved-text overlap: 91.8%. **3-month clicks:** primary not in export; other 0.

Near-identical hub. Either consolidate or turn career track into a genuinely distinct progression/comparison page.

D11 - Juniors Python

Proposed primary: /young-learners-it-program-pakistan/juniors/python-complete/
Other URL: /young-learners-it-program-pakistan/python-complete/

Saved-text overlap: 91.5%. **3-month clicks:** primary 0; other not in export.

Near-identical same age-group product; not the adult Python offer.

D12 - Islamabad NAVTTC hub

Proposed primary: /campuses/islamabad-campus/navttc-free-courses-2025-2026/
Other URL: /islamabad/navttc-free-courses-2025-2026/

Saved-text overlap: 90.8%. **3-month clicks:** primary 1; other 1.

Near-identical local funding information; one local hub. Traffic tied, confirm strongest links.

Before 301: Same product, audience, fees/exam inclusions aur live copy verify karein; strongest links/enquiries check karein. Useful unique text primary par transfer karein. Phir source ka relevant 301, internal links/sitemap update aur target ka single self canonical verify karein. Listed destinations proposed hain.

3. Repeated content: specific merge candidates (13-14)

D13 - CCNP

Proposed primary: /courses/networking/ccnp/
Other URL: /career-tracks/networking/ccnp/

Saved-text overlap: 85.5%. **3-month clicks:** primary 1; other 1.

Substantially repeated curriculum and product. Confirm exam bundle and fee inclusions before merge.

D14 - CCNA general

Proposed primary: /courses/networking/ccna/
Other URL: /career-tracks/networking/ccna/

Saved-text overlap: 84.0%. **3-month clicks:** primary 0; other 0.

Substantially repeated course copy. Confirm price/voucher differences before merge.

Before 301: Same product, audience, fees/exam inclusions aur live copy verify karein; strongest links/enquiries check karein. Useful unique text primary par transfer karein. Phir source ka relevant 301, internal links/sitemap update aur target ka single self canonical verify karein. Listed destinations proposed hain.

4. Same topic ka matlab hamesha duplicate nahi (1-2)

T01 - NAVTTC result guides

/how-to-check-navttc-nts-result-online/

/how-to-check-navttc-nts-result-online-2026/

/navttc-nts-result/

/navttc-batch-3-nts-result-2026/

/nts-navttc-pmysdp-batch-3-result/

Decision: Protect main guide. Keep batch-specific pages only for distinct historical/official results. Same-year generic guide is a merge review, not an automatic redirect; it gained 109 recent clicks.

T02 - NAVTTC free AI Islamabad

/islamabad/artificial-intelligence/

/ai-course-islamabad-navttc/

/ai-free-course-navttc/

/islamabad/navttc-ai-course-batch-3/

/islamabad/navttc-ai-free-course-batch-3/

/islamabad/navttc-ai-free-course/

/free-navttc-skills-of-tomorrow-ai-course-islamabad/

Decision: One current funded AI offer + genuine batch archive. Preserve /islamabad/artificial-intelligence/ visibility. Remove repeated intake copy only after funding/cohort check.

Yeh intent-overlap review hai. Same query par URL switching, current offerings aur useful unique information check kiye baghair sab URLs ko ek page mein merge na karein. Excel ke Intent groups tab mein yehi mapping filter ki ja sakti hai.

4. Same topic ka matlab hamesha duplicate nahi (3-4)

T03 - Adult Python Islamabad

/python-course-islamabad/

/python-programming-course-islamabad/

/islamabad/advanced-python-programming-course/

/islamabad/courses/python-level-1/

/islamabad/courses/python-level-2/

Decision: One beginner and one advanced offer if separately taught. Level-1/2 can be syllabus sections unless separately enrolable products. Keep kids Python separate.

T04 - Digital marketing Islamabad

/best-digital-marketing-course-in-islamabad/

/digital-marketing-seo-course-islamabad/

/islamabad/digital-marketing-course/

/islamabad/courses/digital-marketing-seo/

/career-tracks/digital-marketing/

/career-tracks/digital-marketing/complete-digital-marketing/

Decision: One primary complete course + distinct track overview. Best-course article needs comparison value or merge into course. Funded NAVTTC offering remains distinct.

Yeh intent-overlap review hai. Same query par URL switching, current offerings aur useful unique information check kiye baghair sab URLs ko ek page mein merge na karein. Excel ke Intent groups tab mein yehi mapping filter ki ja sakti hai.

4. Same topic ka matlab hamesha duplicate nahi (5-6)

T05 - Gujrat web development

/web-development-course-in-gujrat/

/web-development-course-gujrat/

/seo-title-web-development-course-in-gujrat-aitech/

Decision: Choose one enrolment page using GSC and link evidence. A best-course article should add real independent choice criteria, not repeat sales copy.

T06 - Islamabad video editing

/video-editing-course-islamabad/

/video-editing-course-in-islamabad/

/courses/video-editing/

Decision: Compare course, city and general copy. One product page plus actual campus delivery information; avoid repeating full curriculum on all routes.

Yeh intent-overlap review hai. Same query par URL switching, current offerings aur useful unique information check kiye baghair sab URLs ko ek page mein merge na karein. Excel ke Intent groups tab mein yehi mapping filter ki ja sakti hai.

4. Same topic ka matlab hamesha duplicate nahi (7-8)

T07 - AI beginner learning guides

/ai-for-beginners/

/how-to-learn-ai-from-scratch/

/ai-roadmap-for-beginners/

/how-long-does-it-take-to-learn-ai/

/do-i-need-coding-to-learn-ai/

/best-ai-skills-for-beginners/

Decision: One substantial starting roadmap. Keep time-to-learn/coding requirement as distinct answers only if useful original depth; otherwise sections. Similar slugs do not prove duplicates.

T08 - Free cybersecurity promotion

/free-cybersecurity-course-learn-cybersecurity-in-one-day/

/1-day-free-cybersecurity-course-with-international-certification/

/free-cybersecurity-training-with-international-certificate/

/free-cybersecurity-course-in-pakistan-with-international-certification/

/free-cybersecurity-course-in-islamabad-with-international-certification/

/free-cybersecurity-course-in-gujrat-with-international-certification/

/how-to-enroll-in-a-free-cybersecurity-course-with-certification/

Decision: One verified free offer, issuer/eligibility/duration/exam fee clarity. Separate city pages only for actual local delivery. How-to-enrol usually a block on offer page.

Yeh intent-overlap review hai. Same query par URL switching, current offerings aur useful unique information check kiye baghair sab URLs ko ek page mein merge na karein. Excel ke Intent groups tab mein yehi mapping filter ki ja sakti hai.

4. Same topic ka matlab hamesha duplicate nahi (9-10)

T09 - Gemini student promotion

/gemini-ai-student-offer-in-gujrat-pakistan-google-ai-pro/

/google-gemini-student-offer-1-year-free-in-2026/

/gemini-offer-for-students-in-pakistan/

Decision: One current Pakistan offer guide if audience relevant. Verify official eligibility/expiry. High-traffic Gujrat guide is protected pending query/link checks. No date-only cloning.

T10 - Women entrepreneur loans

/punjab-women-entrepreneurs-loan-scheme/

/punjabs-rs-50-crore-interest/

/free-loan-scheme-for-women-entrepreneurs-in-pakistan/

/interest-free-loan-scheme-for-women-entrepreneurs/

Decision: Retire/re-scope review: finance guidance needs reliable ownership and sourcing. Keep only with genuine entrepreneurship programme relevance. Preserve useful traffic/links; no broad homepage redirects.

Yeh intent-overlap review hai. Same query par URL switching, current offerings aur useful unique information check kiye baghair sab URLs ko ek page mein merge na karein. Excel ke Intent groups tab mein yehi mapping filter ki ja sakti hai.

4. Same topic ka matlab hamesha duplicate nahi (11-12)

T11 - AI for Everyone offers

/ai-for-everyone-course/

/ai-for-everyone-course-in-islamabad/

/ai-for-everyone-course-in-gujrat/

/ai-for-every-one/

/ai-for-everyone/

Decision: Paid course, funded cohort and informational beginner guide can be distinct. One product overview + actual campus details. Saved content incomplete on several URLs; do not decide from slug alone.

T12 - One-year cybersecurity diploma

/1-year-diploma-in-cybersecurity-in-pakistan/

/best-1-year-diploma-in-cybersecurity-in-pakistan/

/best-1-year-cybersecurity-diploma-in-islamabad/

Decision: One verified diploma product + distinct campus delivery. Compare best-course posts with main offer; do not manufacture accreditation or equivalency.

Yeh intent-overlap review hai. Same query par URL switching, current offerings aur useful unique information check kiye baghair sab URLs ko ek page mein merge na karein. Excel ke Intent groups tab mein yehi mapping filter ki ja sakti hai.

5. Khali course pages - kya karna hai?

79 saved empty-container pages ka matlab 79 pages delete karna nahi. Pehle active course catalogue decide karein. Separate taught/enrolable course ho to useful content build karein; sirf ek module ho to parent syllabus mein section banayein.

URL path	Saved evidence	Recommended action
/courses/	Empty entry-content container in saved HTML	Build a useful directory
/career-tracks/	Empty entry-content container in saved HTML	Build a useful directory
/islamabad/courses/python-level-1/	Empty entry-content container in saved HTML	Active distinct offer: build. Same offer/module: consolidate after verification.
/islamabad/courses/python-level-2/	Empty entry-content container in saved HTML	Active distinct offer: build. Same offer/module: consolidate after verification.
/islamabad/courses/seo/	Empty entry-content container in saved HTML	Active distinct offer: build. Same offer/module: consolidate after verification.
/islamabad/courses/google-ads/	Empty entry-content container in saved HTML	Active distinct offer: build. Same offer/module: consolidate after verification.
/islamabad/courses/amazon-va/	Empty entry-content container in saved HTML	Active distinct offer: build. Same offer/module: consolidate after verification.
/islamabad/courses/ccna-enterprise-v7/	Saved HTML incomplete	Active distinct offer: build. Same offer/module: consolidate after verification.
/islamabad/career-tracks/digital-marketing/	Empty entry-content container in saved HTML	Active distinct offer: build. Same offer/module: consolidate after verification.
/courses-2/	Empty entry-content container in saved HTML	Active distinct offer: build. Same offer/module: consolidate after verification.

Course page minimum useful blocks: who it is for, prerequisites, real fee/inclusions, next intake/timings, duration/mode/campus, curriculum, practical project, trainer proof, certification issuer/exam details, FAQs aur admission next step. Har course par copied generic text lagana solution nahi.

6. Kaun se pages ki public SEO zaroorat kam hai?

Student dashboards / checkout: Functional zaroorat ho to rakhein. Public search audience ka independent useful answer na ho to noindex review karein. Private student data ko authentication chahiye; noindex privacy protection nahi.

URL path	Decision
/ai-developer-dashboard/	Keep functional purpose. Review search indexing and privacy/access needs.
/ai-ecommerce-dashboard/	Keep functional purpose. Review search indexing and privacy/access needs.
/ai-for-everyone-practical-dashboard/	Keep functional purpose. Review search indexing and privacy/access needs.
/courses/overseas-pakistanis/checkout-success/	Keep functional purpose. Review search indexing and privacy/access needs.
/courses/overseas-pakistanis/checkout/	Keep functional purpose. Review search indexing and privacy/access needs.
/digital-marketing-dashboard/	Keep functional purpose. Review search indexing and privacy/access needs.
/office-management-dashboard/	Keep functional purpose. Review search indexing and privacy/access needs.

56 lesson-purpose pages: /career-tracks/... ke deep modules ko sirf curriculum label ki wajah se independent search page na banayein. Real standalone exercise/tutorial ho to keep; sirf outline ho to course page ka section ya student learning area. Same lesson ko multiple tracks se link kiya ja sakta hai.

802 tags, 239 categories, 7 authors: Helpful curated category hubs aur genuine expert profiles rakhein. Empty/repeated keyword-tag archives ko index karwane ki blanket zaroorat nahi. Useful browsing retain karke low-value archives ke noindex/sitemap exclusion ka review karein; canonical consolidation ke substitute ke taur par noindex na use karein.

7. Purane aur peripheral blogs ka faisla

URL path	3m clicks	Action
/free-loan-scheme-for-women-entrepreneurs-in-pakistan/	not in export	Refresh if useful and verified; otherwise retire after business/link checks.
/interest-free-loan-scheme-for-women-entrepreneurs/	not in export	Refresh if useful and verified; otherwise retire after business/link checks.
/pakistan-independence-day-offer/	10	Refresh if useful and verified; otherwise retire after business/link checks.
/punjab-women-entrepreneurs-loan-scheme/	34	Refresh if useful and verified; otherwise retire after business/link checks.
/punjabs-rs-50-crore-interest/	not in export	Refresh if useful and verified; otherwise retire after business/link checks.
/tech-trends-2024/	0	Refresh if useful and verified; otherwise retire after business/link checks.

Loan-scheme pages par finance facts verify karne ka owner aur official source chahiye. Agar institute ka genuine entrepreneurship programme se relation nahi, inhein expand na karein. /punjab-women-entrepreneurs-loan-scheme/ par 34 clicks hain; is liye traffic/link context check kiye baghair delete na karein.

Old offer/date pages: expiry clearly show karein. Genuine historical programme ka useful record ho to archive reh sakta hai. Sirf year badal kar naya clone banana avoid karein. Removed page ka equivalent replacement na ho to proper 404/410 theek hai; homepage par irrelevant 301 na lagayein.

Educational blogs jaise what-is, comparison, roadmap aur practical how-to tab useful hain jab woh distinct learner question solve karein. Ek clear roadmap mein short overlapping answers combine ho sakte hain; detailed practical tutorials ko alag rakha ja sakta hai.

8. Ab hone kya chahiye - naye pages aur blocks

Need	Existing ya new?	Required content
Course directory	Improve /courses/ first	Active course cards, beginner/advanced filters, campus/mode, fee and intake links. /courses-2/ ko duplicate directory na banayein.
Course fees	Existing /computer-courses-in-islamabad-with-fees/ review	Verified fee table, tuition/exam inclusions, last checked date; official course pages se consistent. Naya competing fees blog zaroori nahi.
Admissions process	New conditional /admissions/	Saved inventory mein general admissions hub nahi mila. CMS check ke baad steps, eligibility, documents, payment/refund link, contacts. NAVTTC eligibility alag context hai.
Trainers / team	Improve /our-team/	Real instructor names, expertise, credentials, taught courses and profiles where useful. New duplicate team hub na banayein.
Student outcomes	Improve /success-stories/	Real projects, dated student stories, credible outcomes with consent; course links. Placeholder testimonials nahi.
Project portfolio	New conditional or course blocks	Existing outcomes page mein fit na ho to verified student-work portfolio. Har course par specific project samples primary need.
Refund / transfer policy	New conditional support page	Real approved terms, refund/transfer process and contact. Operational need, ranking-growth article nahi.
Paid/funded course choice	Existing offer blocks first	Fee-funded eligibility distinction, who can apply, current seats. Same product ke multiple generic city sales pages reduce karein.

New means suggested future content, verified absence from live CMS nahi. Course/company facts admissions team se verify karke publish karein. Kisi credential, funding ya result claim ko invent na karein.

9. Recommended structure - URLs sab change na karein

One course, one primary product destination: Is report mein suggested role architecture hai. Already ranking URLs ko sirf tidy folders banane ke liye migrate karna zaroori nahi.

Role	Kya publish ho	Kya avoid ho
Homepage / campus hub	Verified institute, local facilities, active courses, directions, contacts.	Same campus copy multiple URLs par.
Course directory	All active courses and useful selection filters.	Blank /courses/ and competing /courses-2/.
Career track	Course progression, prerequisites, duration and jobs/skills roadmap.	Course page ki full duplicate copy.
Course offer	One clear product, pricing, intake, syllabus and proof.	Same fee/product ke multiple best-course clones.
Blog	Distinct tutorial, comparison, career question or official-status guide.	Course offer ko generic sales article ke taur par repeat karna.
Lesson / learning area	Real exercises or authenticated learner workflow.	Empty module labels publicly index karwana.
Campus variations	Real local schedule, trainer, facility and delivery differences.	Sirf city name swap karke same content.

Kids/adults, beginner/advanced, paid/funded, tutorial/offer aur different certifications ko clearly separate rakhein. Yeh real differences distinct pages justify kar sakti hain. Canonical ko different courses ke signals forcibly combine karne ke liye use na karein.

10. Implementation order aur final recommendation

Order	Kaam	Completion evidence
1. Inventory verify	718 rows ko active course catalogue/CMS ke against validate. Incomplete/firewall snapshots ko rendered state se check.	Active/inactive offer aur purpose documented.
2. Protect winners	Main NAVTTC guide, homepage, /islamabad/artificial-intelligence/, campus pages aur growing result variants ke baselines save.	GSC queries/pages and existing enquiries/links checked.
3. Fix main templates	Canonical/head, HTTPS, navigation and broken links. Main directories restore.	One intended canonical; useful working course navigation.
4. First merge batch	D01-D14 mein same-offer confirmation ke baad small batches. Unique content preserve.	301 -> correct 200 target; links/sitemap updated; no loops.
5. Course content	79 shell flags and high-intent course/blog overlap first. Real blocks build.	User can assess fee, course fit and admissions without contradictions.
6. Blogs and lessons	T01-T12 intent choices, meaningful tutorials, expired/peripheral content decisions.	Each retained page has distinct documented purpose.
7. Monitor	Change log + weekly page/query cohort and qualified enquiries.	No avoidable loss on protected URLs; admissions measured separately.

Final recommendation: Full website rewrite nahi. Useful content retain + selective merge + empty templates rebuild + distinct course/blog roles. Delete/redirect ka final list business catalogue, links aur current rendered verification ke baad release hona chahiye. Current Excel har known URL ke liye next action deta hai; review flags ko final delete instruction na samjhein.

Implementation audit se alag work hai. Is delivery mein koi URL, content, indexing setting ya redirect publish nahi kiya gaya.

11. Sources aur Excel ko kaise use karein

Excel tabs: Decisions summary; Blogs and pages (718 records); Duplicate pairs (14 mappings); Intent groups (12 related-topic groups); Other URLs (1,513 records). Action, Priority aur Evidence par filter use karein.

First filter: Priority P1. Then Merge candidate, Build or consolidate empty page, Intent overlap review. Incomplete/firewall evidence ke liye pehle current CMS check karein. Proposed destination blank ho to koi automatic redirect target define nahi kiya gaya.

Source collection: AITECH XML sitemap index and child sitemaps, saved public HTML snapshots, authenticated Search Console page exports and 28-day comparison. Sitemap post/page classifications content type hain, recommendations intent-based hain. Duplicate similarity locally calculated from saved text; common footer trimmed. No fresh bulk crawl performed.

Google guidance: Permanent consolidation ke liye relevant redirects, consistent canonical/internal links aur sitemap signals align karein. Useful, original learner-focused content ko quality criteria se assess karein. Sirf page count kam karna ya metadata rewrite ranking guarantee nahi.

Google: consolidate duplicate URLs

Google: helpful and reliable content

Companion Excel attachment is PDF ke andar bhi available hai. Detailed source exports pehle recovery report mein attached hain. Current files ko 25 Oct assessment ke snapshot ke taur par use karein; implementation se pehle changed pages revalidate karein.
